JUDOMANAGER **LITE**

Partnership with IJF

National federation signs an agreement with IJF to adopt JudoManager LITE and align on data standards.

IJF covers the basic costs

IJF funds system set-up and provides tailored IT support for smooth national integration.

Nationwide rollout & long-term benefits

All clubs gain access to a unified system. IJF ensures regular updates, training and national IT development.

JUDOMANAGER LITE includes basic features for essential federation management

Fight-by-fight video archive with technique tagging

FUTURE **PROJECTS**

NEW IJF.ORG PAGE

A modern platform with full archive results, fresh news, daily updates and full integration with all IJF systems to inspire judo fans worldwide.

IJF CLUB DATABASE

Clubs are the heart of judo. This new system will show every club and its location on a global judo map.

AI TECHNOLOGY

We are developing AI tools for video tagging, technique recognition and smart analysis to enhance the judo experience.

International Judo Federation
