## IJF FLAG REFERENCE MANUAL

This manual contains the flags of each International Judo Federation (IJF) member, associated members and continental unions. It should be used to ensure that, in all IJF World Judo Tour events, the flags displayed in the venue and those used during the awarding ceremony are as shown in this handbook.

A national flag represents and symbolises a sovereign state. It is flown by the government of that nation, but usually can also be flown by its citizens. A national flag is typically designed with specific meanings for its colours and symbols, which may also be used separately from the flag as a symbol of the nation. The design of a national flag is sometimes altered after the occurrence of important historical events. Flags must be treated with respect at all times.

Comments and feedback can be sent to [sport@ijf.org](mailto:sport@ijf.org)

© International Judo Federation, 2024

These flags were correct at the time of publication. We aim to keep this manual as up to date as possible, we apologize if a flag has changed and it is no longer correct in this version.

## REGULATIONS

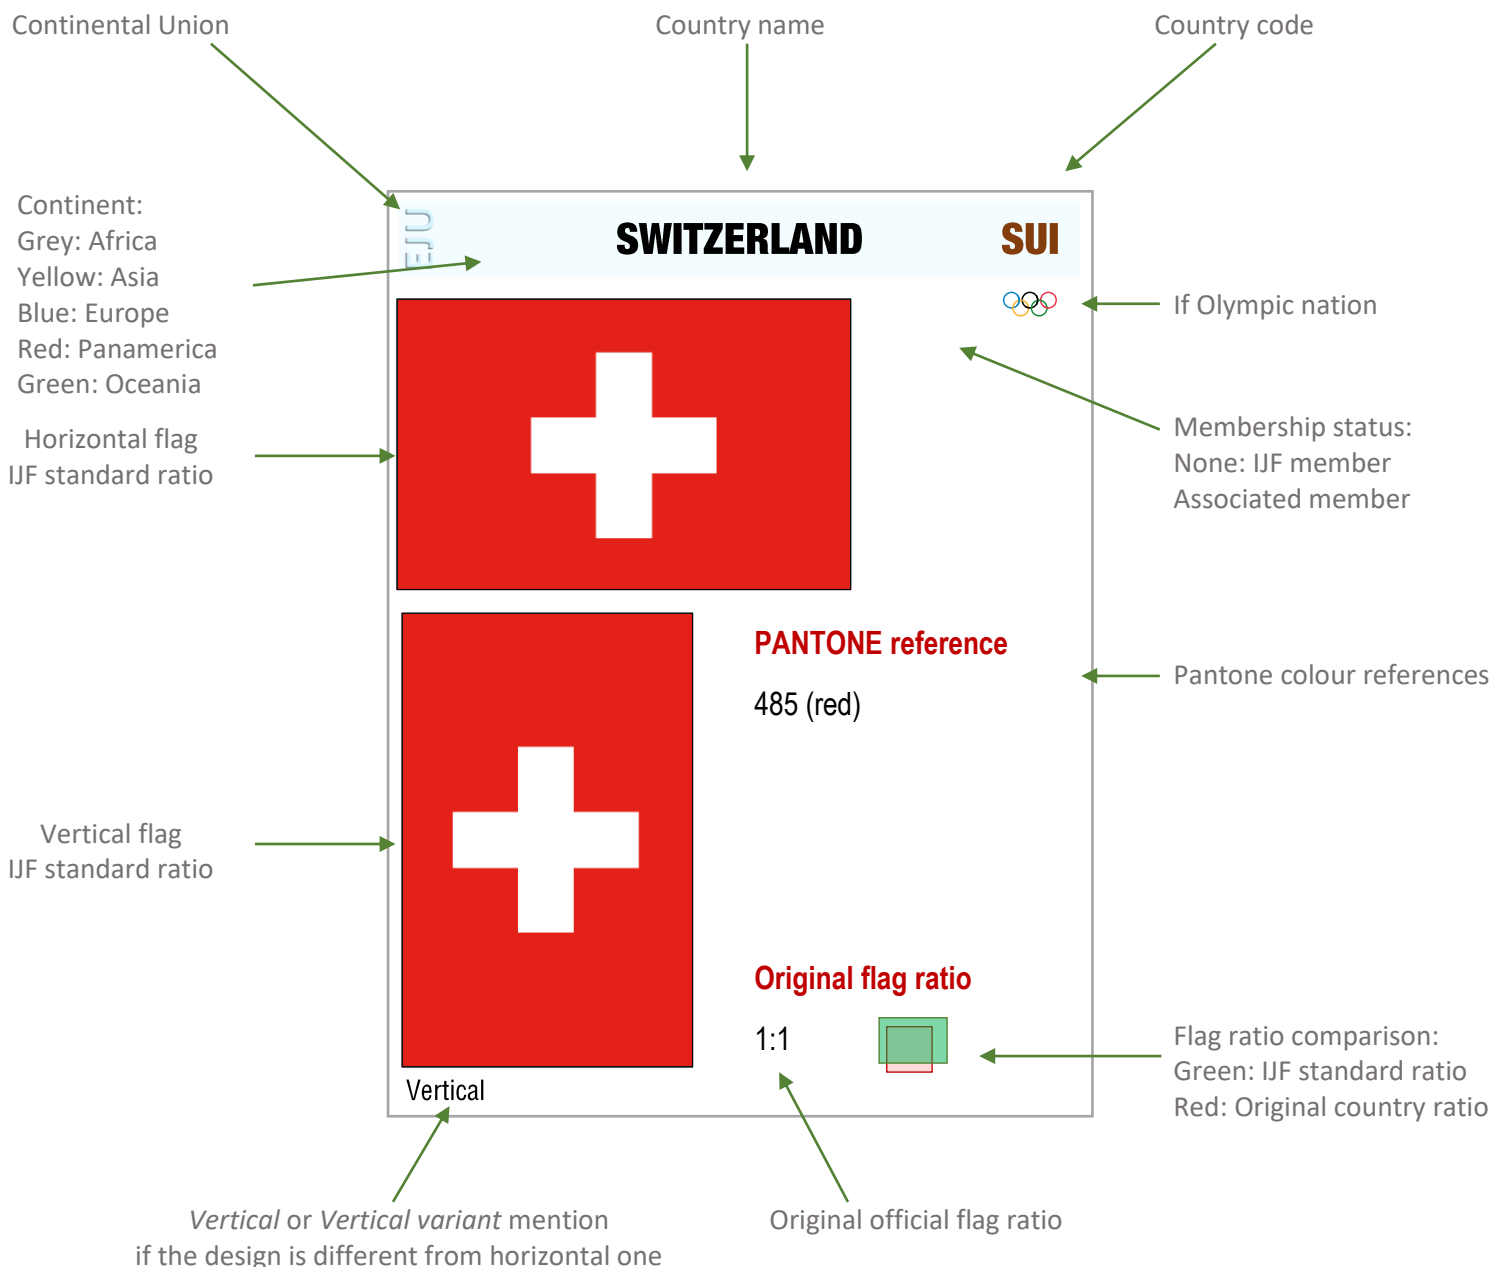

All the flag references in this handbook concern the observe side only (the side with the emblem or principle design).

Flags must be as shown in this handbook (for some flags, the reverse side can be different and are not shown in this manual).

All flags should be the same size and ratio, except the flag of Nepal which keeps its official ratio. The IJF standard ratio is 2/3. All flags with other ratios have been redesigned to fit the IJF standard ratio. The flag of Nepal should have the same height (or width in vertical) as all the flags.

The IJF Country Code rule are as follows: NOC Code is used for Olympic nations and the ISO 3166 alpha-3 code for non-Olympic members.

For each country, the flag reference will be as following:

## Local Organiser

The local organiser is responsible for the production of all flags. Flags must be ironed or steamed flat to remove any creases. Damaged flags must be replaced.

They must provide:

- To hang in the venue:** One (1) International Judo Federation (IJF) flag.  
One (1) National Federation flag (not the nation flag).  
One (1) event flag/local organising committee (if applicable/optional).  
One (1) per participating delegation (national flag or approved equivalent).

The flags should be hung in the correct vertical or horizontal orientation. For a multiple flag display, they should be hung in alphabetical order according to the NOC code. The final NOC code list will be ready at the end of accreditation. If that is too late to hang them, please contact [registration@ijf.org](mailto:registration@ijf.org) for the most up to date list that they have on the date that you need to hang them.

Option one is to have the IJF flag, National Federation flag and event flag/local organising committee flag in this order at the start.

Option two is to have the IJF flag, National Federation flag and event flag/local organising committee flag hanging separately (but never on the same side as the awarding flag raising).

- Opening ceremony:** One (1) per participating delegation (national flag or approved equivalent) for the opening ceremony (if applicable).

- Awarding ceremony:** Two (2) flags of each participating delegation (national flag or approved equivalent).  
Four (4) flags of the host nation (national flag or approved equivalent).  
Note: For Masters, organisers should check the invitation list for the number of flags (national flag or approved equivalent) that may be required per each participating delegation.

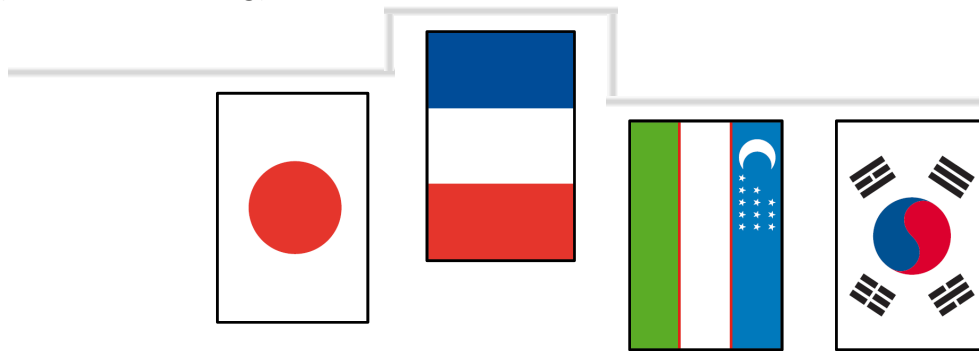

For the awarding ceremony it should be a material flags raised on a mechanism and not flags displayed on a screen (the IJF will have these available in case of mechanical failure). Flags should be folded when carried to and from the flag hanging mechanism and must be fastened securely to stop them from falling.

There must be dedicated lights for the flags, that follow them all the way from the ground level to the ceiling.

The flags must face the athletes' podium or, if impossible, be placed only slightly laterally. From the view of the athletes, the 2<sup>nd</sup> place flag should hang to the left of the 1<sup>st</sup> place, and the two 3<sup>rd</sup> places should be on the right.

The flags shall be raised at the same time but with a slight difference of level between them (1<sup>st</sup> place the highest, 2<sup>nd</sup> place lower than the 1<sup>st</sup> place one and the two 3<sup>rd</sup> place ones lower than the 2<sup>nd</sup> place one).

Example (GS FRA 2023, +100kg):

If there is a double disqualification in the final, there must be the option to display two 2<sup>nd</sup> place flags at the same level as each other. The second silver support needs to be attached permanently or can be attached at any moment.

Example (GS GER 2018, +100kg):

**Note:** The displayed flags for this example above were the ones used at the time of the event and might have changed since then.

For the IJF World Judo Masters the flags for the awarding ceremony need to be agreed once the final invitations are known.

### IMPORTANT

It is improper to use flags as a table or seat cover or as a masking for boxes, barriers, or the intervening space between a dais or platform and the floor. The use of any of the national flags to cover a statue, monument or plaque for an unveiling ceremony is discouraged.
