IJF IC
Report on the Deaf Judo Grand Slam.
The competition ran smoothly from the first day through to the final day.
The Local Organizing Committee (LOC) and the IJF made significant efforts to ensure everything was adapted for deaf athletes; this inaugural inclusive edition was a success.

The referees adapted well to working with deaf athletes during the competition; the interaction between athletes and referees is more significant here than in traditional competitions.

Athletes were delighted with the event from day one; at the Mont-Olivet Lausanne Grand Slam, deaf judokas took their place alongside World Judo Tour athletes, competing in the same arena and under the same spotlight. The event was inclusive from the outset, and the athletes were thrilled to share the tatami with hearing athletes.

Following the Grand Slam, two athletes (from Argentina and Chile) stayed on to participate in the training camp.

The DIJF is satisfied with the overall outcome. We aim to organize another event—this time a Grand Slam—to welcome more athletes and countries. We plan to hold it twice a year to establish a regular schedule, for example, one in the winter/spring and one in Lausanne.
